We do return policy and price match or whatever
Can you do a research policy check on Bestbuy, Costco and another place please?

Best Buy:
Price matches with a retailer or authorized dealer online, in-store, or in print before you buy or within 30 days of your purchase.
Return period is 30 days.

Costco:
No price match.
Costco will accept returns within 90 day.

Amazon:
No price match.
Returns within 30 days for a full refund.

Staples:
Price match available If a lower price on a new, identical item. Staples will match that lower price with an additional discount by 10% of the difference.
Retur computers and laptops within 14 days.

We want a Help page. Please write something as a help guide or something. And also we need an introduction of our project. Like "About Us"

Help Page:
-- IN DEVELOPMENT -- NEED ANOTHER DAY TO FINISH THIS --

About us:
We're a group of three students who study Computer Systems Technology at BCIT. Our team consists of one main coder, one main project manager and a main designer. When we first started on this project, we were all complete strangers to each other, it was the first day of class and we got paired randomly with two other people. Over a period of four months, our team became very close and worked diligently towards our end goal.

We have created this application called "Specsify" for our "Projects 1" course. Our team wanted to create something that would take a certain input from the user and provide them with a solution of some sort. After days of research and discussion, we decided upon this idea of taking input from the user and us suggesting some laptops with that input - which was later refined to provide just the specs of those laptops. Our project has evolved and been redesigned constantly to provide the best possible user experience that we are able to. Over the span of our project, our team completed various sprints and improved tremendously with the help of our instructor. Every week, she provided us with new resources that allowed us to bring our project up a notch.
